

Asser joined CRD Building Consultants in December 2019 having previously worked as a Forensic Engineer for JHA Australia Group.

He has a strong Engineering background in structural design, assessment of building structures including identification of defects and identification of causation.

Asser's experience spans all sectors including residential dwellings, both low and high rise, through to commercial properties such as shopping centres.

Asser also brings experience working on complex assessments, through onsite investigations following natural disasters, scopes of work and causation reporting.
